INDEX OF SUBJECTS

PAGE

ACID PHOSPHATASE, immunohistochemical study of macrophages in human tumours 73
ALVEOLAR EPITHELIUM, elastase-induced emphysema: asynchronous bronchial, alveolar and endothelial cell proliferation during the acute response to injury 253
ALVEOLAR MACROPHAGES and grain dust: an experimental study of the effects of grain dust on the mouse lung . . 265
ANTIBODY, experimental granulomas induced by mycobacterial immune complexes in rats 59
role in primary and reinfection BCG granulomas of rat skin 41
APPENDIX VERMIFORMIS, "extraepithelial enterochromaffin cell—nerve-fibre complexes" in the normal human appendix, and in neurogenic appendicopathy 217
ARBOVIRUS, ultrastructural changes in skeletal muscles in dengue virus-infected mice 301
ARGENTAFFIN CELLS, "extraepithelial enterochromaffin cell—nerve-fibre complexes" in the normal human appendix, and in neurogenic appendicopathy 217
ARTERIES, endothelial pavement patterns . 227
morphometric investigation of hypertrophy in DOCA-hypertensive rats . 85
ARTERY, RENAL, STENOSIS, histological and ultrastructural studies of the human juxtaglomerular apparatus in Bartter's syndrome and 181

BARTTER'S SYNDROME, histological and ultrastructural studies of human juxtaglomerular apparatus in 181
BCG, functional studies of isolated epithelioid cells from disaggregated BCG granulomas 15
role of antibody in primary and reinfection BCG granulomas of rat skin . 41
ultrastructural study of isolated epithelioid cells from disaggregated BCG granulomas 1
BOIVIN ANTIGEN, renal malakoplakia: experimental production and evidence of a link with interstitial megalocytic nephritis 111
BRONCHIAL EPITHELIUM, elastase-induced emphysema: asynchronous bronchial, alveolar and endothelial cell proliferation during the acute response to injury 253

CALCERGY, skeletal muscle 169
CALIFICATION, TISSUE, and inflammation in osteoarthritis 199
CALCITONIN alters behaviour of isolated osteoclasts 27
CARTILAGE, ARTICULAR, breakdown of by vascular tissue 333
CELL CYCLE and related concepts in cell proliferation 149
CELL PROLIFERATION, cell cycle and related concepts in 149
elastase-induced emphysema: asynchronous bronchial, alveolar and endothelial cell proliferation during the acute response to injury . . . 253
COLLAGEN, breakdown of articular cartilage by vascular tissue 333

DENGUE virus-infected mice: ultrastructural changes in skeletal muscles in . . 301
DIPHOSPHONATES, skeletal muscle calcergy . 169
DNA, cell cycle and related concepts in cell proliferation 149
elastase-induced emphysema: asynchronous bronchial alveolar and endothelial cell proliferation during the acute response to injury 253
DOCA-hypertensive rats: morphometric investigation of hypertrophy in arteries . 85
DUST, GRAIN, and alveolar macrophages: an experimental study of the effects of grain dust on the mouse lung . . 265

ELASTASE-induced emphysema: asynchronous bronchial, alveolar and endothelial cell proliferation during the acute response to injury 253
ELECTRON MICROSCOPY, TRANSMISSION, changes in skeletal muscles in dengue virus-infected mice 301
experimental granulomas induced by mycobacterial immune complexes in rats 59

PAGE

experimental study of the effects of grain dust on the mouse lung 265
" extraepithelial enterochromaffin cell—nerve-fibre complexes " in the normal human appendix, and in neurogenic appendicopathy 217
histological studies of the human juxtaglomerular apparatus in Bartter's syndrome and renal artery stenosis . . 181
isolated epitheloid cells from disaggregated BCG granulomas . . 1
microfibrils in glomerulopathies of children 123
non-sclerotic glomeruli in childhood nephrotic syndrome 133
plasma membrane and phagosome localisation of the activated NADPH oxidase in elicited peritoneal macrophages of the guinea-pig . . . 241
tissue calcification and inflammation in osteoarthritis 199
uptake of cationised ferritin and its subsequent redistribution by gallbladder epithelium *in vivo* 95

EMPHYSEMA, elastase-induced: asynchronous bronchial, alveolar and endothelial cell proliferation during the acture response to injury . . . 253

ENDOCRINE CELLS, " extraepithelial enterochromaffin cell—nerve-fibre complexes " in the normal human appendix, and in neurogenic appendicopathy 217

ENDOTHELIUM, pavement patterns in human arteries 227

ENTEROCHROMAFFIN CELLS, EXTRAEPITHELIAL, nerve-fibre complexes in the normal human appendix, and in neurogenic appendicopathy . . 217

ENZYMES, elastase-induced emphysema: asynchronous bronchial, alveolar and endothelial cell proliferation during the acute response to injury . . . 253
immunohistochemical study of macrophages in human tumours . . . 73
respiratory burst in elicited guinea pig peritoneal macrophages . . . 273

EPITHELIOID CELLS, distribution of immunoglobulin and other plasma proteins in human reactive lymph nodes . . 307
functional studies of isolated epitheloid cells from disaggregated BCG granulomas 15
ultrastructural study of isolated epithelioid cells from disaggregated BCG granulomas 1

EPITHELIUM, GALL BLADDER: uptake of cationised ferritin and its subsequent redistribution by 95

ESTERASE, NONSPECIFIC, immunohistochemical study of macrophages in human tumours 73

PAGE

FERRITIN, CATIONISED uptake and its subsequent redistribution by gall bladder epithelium *in vivo* 95

FIBRINOLYSIS, mesothelium and . . . 291

GALL BLADDER, uptake of cationised ferritin and its subsequent redistribution by gall bladder epithelium *in vivo* . 95

GLOMERULONEPHRITIS, microfibrils in glomerulopathies of children: an ultrastructural study 123
non-sclerotic glomeruli in childhood nephrotic syndrome: an ultrastructural study 133

GLOMERULOSCLEROSIS, SEGMENTAL, electron microscopic study of non-sclerotic glomeruli made in 96 children with the nephrotic syndrome 133

GRANULOMAS, calcitonin alters behaviour of isolated osteoclasts 27
distribution of immunoglobulin and other plasma proteins in human reactive lymph nodes 307
experimental, induced by mycobacterial immune complexes in rats . . . 59
isolated epithelioid cells from disaggregated BCG granulomas: functional studies 15
isolated epithelioid cells from disaggregated BCG granulomas: ultrastructural study 1
role of antibody in primary and reinfection BCG granulomas of rat skin . 41

GUINEA-PIG, enzyme responsible for the respiratory burst in elicited peritoneal macrophages 273
plasma membrane and phagosome localisation of the activated NADPH oxidase in elicited peritoneal macrophages 241

HAMSTER, elastase-induced emphysema: asynchronous bronchial, alveolar and endothelial cell proliferation during the acute response to injury . . . 253

HYPERTENSION, morphometric investigation of hypertrophy in the arteries of rats . 85

IMMUNE COMPLEXES, mycobacterial: experimental granulomas induced in rats . 59

IMMUNOGLOBULIN distribution and other plasma proteins in human reactive lymph nodes 307

IMMUNOHISTOCHEMISTRY, distribution of immunoglobulin and other plasma proteins in human reactive lymph nodes . 307
macrophages in human tumours . . 73

PAGE

JUXTAGLOMERULAR APPARATUS in Bartter's syndrome and renal artery stenosis: histological and ultrastructural studies . 181

KIDNEY, histological and ultrastructural studies of the human juxtaglomerular apparatus in Bartter's syndrome and renal artery stenosis 181
microfibrils in glomerulopathies of children: ultrastructural study . . . 123
renal malakoplakia: experimental production and evidence of a link with interstitial megalocytic nephritis . . 111
ultrastructure of the non-sclerotic glomeruli in childhood nephrotic syndrome 133

LACIS CELLS, histological and ultrastructural studies of the human juxtaglomerular apparatus in Bartter's syndrome and renal artery stenosis . . . 181
LUNG, alveolar macrophages: experimental study of the effects of grain dust on the mouse lung 265
elastase-induced emphysema: asynchronous bronchial, alveolar and endothelial cell proliferation during the acute response to injury . . . 253
LYMPH NODES, reactive: distribution of immunoglobulin and other plasma proteins in patients aged 12–58 yr . . 307
experimental granulomas induced by mycobacterial immune complexes in rats 59
LYSOZYME, macrophages in human tumours: immunohistochemical study . 73

MACROPHAGES, enzyme responsible for the respiratory burst in elicited peritoneal macrophages of the guinea-pig . . 273
experimental study of the effects of grain dust on the mouse lung . . . 265
immunohistochemical study of human tumours 73
isolated epithelioid cells from disaggregated BCG granulomas: functional studies 15
isolated epitheloid cells from disaggregated BCG granulomas: ultrastructural study 1
plasma membrane and phagosome localisation of the activated NADPH oxidase in elicited peritoneal macrophages of the guinea-pig . . . 241
role of antibody in primary and reinfection BCG granulomas of rat skin . 41
MACULA DENSA, histological and ultrastructural studies of the human juxtaglomerular apparatus in Bartter's syndrome and renal artery stenosis . . 181
MALAKOPLAKIA, experimental production and evidence of a link with interstitial megalocytic nephritis 111
MESOTHELIUM, its fibrinolytic properties . 291
MICHAELIS-GUTMANN BODIES, renal malakoplakia: experimental production and evidence of a link with interstitial megalocytic nephritis . . 111
MICROFIBRILS in glomerulopathies of children: ultrastructural study . . . 123
MITOSIS, cell cycle and related concepts in cell proliferation 149
MORPHOMETRY, investigation of hypertrophy in the arteries of DOCA-hypertensive rats 85
MOUSE, experimental study of the effects of grain dust on the lung skeletal muscle calcergy 169
ultrastructural changes in skeletal muscles in dengue virus infection . . 301
MUSCLE calcergy, skeletal 169
ultrastructural study of dengue myositis . 301
MYCOBACTERIA, experimental granulomas induced by mycobacterial immune complexes in rats 59
isolated epithelioid cells from disaggregated BCG granulomas: functional studies 15
isolated epithelioid cells from disaggregated BCG granulomas: ultrastructural study 1
role of antibody in primary and reinfection BCG granulomas of rat skin . 41

NADPH OXIDASE, enzyme responsible for the respiratory burst in elicited guinea-pig peritoneal macrophages . . . 273
plasma membrane and phagosome localisation of the activated NADPH oxidase in elicited peritoneal macrophages of the guinea-pig . . . 241
NEPHRITIS, INTERSTITIAL, microfibrils in glomerulopathies of children: ultrastructural study 123
renal malakoplakia: experimental production and evidence of a link with interstitial megalocytic nephritis . . 111
NEPHROTIC SYNDROME in childhood: ultrastructure of the non-sclerotic glomeruli 133
NERVE-FIBRE COMPLEXES in the normal human appendix, and in neurogenic appendicopathy 217

OBITUARY, Rupert Allan Willis, D.Sc., M.D., F.R.C.P., F.R.A.C.P., F.R.C.S., F.R.C.Path. 1898–1980 . . . 345

PAGE

OSTEOARTHRITIS, tissue calcification and inflammation in 199
OSTEOCLASTS incubated on glass or plastic substrate and effect of calcitonin on their behaviour observed . . . 27

PANNICULUS CARNOSUS MUSCLE, skeletal muscle calcergy 169
PAVEMENT PATTERNS, ENDOTHELIAL in human arteries 227
PHAGOCYTOSIS, isolated epithelioid cells from disaggregated BCG granulomas: functional studies 15
PHAGOSOME LOCALISATION, subcellular distribution of the NADPH oxidase of guinea-pig peritoneal-elicited macrophages investigated 241
PIGS, breakdown of articular cartilage by vascular tissue 333
PLASMA MEMBRANE and phagosome localisation of the activated NADPH oxidase in elicited peritoneal macrophages of the guinea-pig . . . 241
PLASMA PROTEINS, distribution in human reactive lymph nodes 307
PLASMINOGEN ACTIVATORS, fibrinolytic properties of mesothelium . . . 291
PROTEOGLYCAN, breakdown of articular cartilage by vascular tissue . . . 333

RATS, experimental granulomas induced by mycobacterial immune complexes . 59
fibrinolytic properties of the mesothelium . 291
isolated epithelioid cells from disaggregated BCG granulomas: functional studies 15
isolated epithelioid cells from disaggregated BCG granulomas: ultrastructural study 1
morphometric investigation of hypertrophy in the arteries in DOCA-hypertension 85
renal malakoplakia: experimental production and evidence of a link with interstitial megalocytic nephritis . . 111
role of antibody in primary and reinfection BCG granulomas of skin . . 41
RECEPTORS, C3, isolated epithelioid cells from disaggregated BCG granulomas: functional studies 15
RESPIRATORY BURST ENZYME, study of enzymatic basis of the respiratory burst induced by phorbol myristate acetate in elicited peritoneal macrophages of the guinea-pig . . . 273

SKIN, role of antibody in primary and reinfection BCG granulomas . . 41

TIME LAPSE CINEMATOGRAPHY, calcitonin alters behaviour of isolated osteoclasts 27
TURMOURS, HUMAN, GENERAL, immunohistochemical study of macrophages . 73

VASCULAR TISSUE, breakdown of articular cartilage by 333
VASCULITIS, experimental granulomas induced by mycobacterial immune complexes in rats 59
VIRUS, ultrastructural study of dengue myositis in mice 301
